

nature BINGO

nature BINGO

The aim of nature bingo is to see how many of the items on the game board you can find. First you'll need a copy of the game board provided here or create your own.

Option One

Find a camera and take a photo of each of the items on your bingo board. Once complete, you could print the photos and arrange them into a story or collage.

Option Two

Sit outside and point out the items you see. Use a pencil to mark them off the bingo board as you go.

Option Three

Make up your own way to play nature bingo!

Something smooth	3 different coloured leaves	Something light	Something heavy	A long skinny leaf
A rock	Something that doesn't belong	A stick	Something round	Something rough
Something that's your favourite colour	A feather	Something wet	A stick shaped like a Y	Something dead
A weed	Something prickly	Bark	Something orange	Dirt
Something shiny	A flower	Something that smells	A bendy stick	Something you think is strange

Nature Bingo is just one of the fun and engaging activities from the book 'Your Wild Imagination', available now at yourwildbooks.com
